Registered Land Surveyor

.

Sec. 36-T/15N.-R.3W. was surveyed in 1899 by La Rue, County Surveyor, and an iron buggy stub was set at the North Quarter corner of Sec. 36.

NE Corner of Conc. Bridge Abutment

The corner set in 1899 was not found. This corner was then established with a Harrison monument half way and on a straight line between the Southeast and Southwest section corners of Sec. 25. This intersection fits a fence to the East at this location and the extension North of a fence to the South which begins approximately 500 feet South.

Description of corner and witness monuments, references and accessories used to perpetuate the original or re-established location of this corner:
