CERTIFIED LAND CORNER

History of corner establishment since Original Government Survey Fred Holden was here in 1910 during a survey of Section 34. He also established and set iron pipes at the 20 Corner and 40 Corner West of this location during this survey.

Description of corner evidence found:

Found the iron pipes set by Fred Holden at both the 40 corner and 20 corner west of this location.

Distances between these two measured well, but the distance from the 40 corner west to the N 1/4 Corner was short by 22 feet, but the terrain may account for this.

Doubled the distance from 40 Corner to 20 Corner as the best evidence of the original location of this corner. Distances to the North, East and South fit real well.
