------------------	----------------	------------------	-------------------

Henry I. Bliss, County Surveyor of LaCrosse County, surveyed the entire Township of Bangor in 1867 and set monuments at each Section and Quarter corner.

Description of corner evidence found:

Found a 6"x6" stone, up 3", 3' + West of a 2-way fence corner. This stone is similar to others found on the West line of the Township of Leon, therefore, I accepted the stone as the corner.
