History of corner establishment since Original Government Survey

Kenyon or H. Schroeder was here in October of 1883. Fred A. Holden was here in August of 1902 and again in June of 1910.

Description of corner evidence found:

Found Holden's angle iron witness corner as called for in his 1902 notes. Computed this corner to be 520.08 feet North of said angle iron. Set a 1%"x30" round iron bar 160.0 feet North of the actual corner as a witness.
