History of original corner establishment:

Harley A. Sime do hereby 28th certify that on the 19 76, I found January (evidence) (no evidence) of the \_\_\_ S 1/4 corner of Section 21 \_\_\_\_, T\_\_\_\_\_\_N, R\_4\_ W Fourth Principal Meridian, and I reestablished said corner according to the Wisconsin Statutes as shown and described hereon.

29th day of Jan.

Surveyor

Fred Holden, under the direction of Hamilton La Rue, set this corner in November of 1899.

Description of corner evidence found:

Set the corner on line with the line fence to the East and at the record distance from the S.E. corner of Section 21. Found an old partially cut down oak, diameter of 40", to the S.W. that fits Holden's distance and bearing (after allowing for the difference in magnetic declination) of 1899. With the corner set as such, the bearing from the S1/4 cor. to the Centerl/4 cor. of Sec. 21 is almost parallel to the bearing of the East line of the S.E.1/4 of Sec. 21.

Note: If there is ever found a nail in the center of the road with iron pipes

-	Note: See cor. she further info					them as they are merely stald be about 8' North of
