## CERTIFICATE

I, Nicholas M. Hillmer, do hereby certify that this document and the data contained herein was prepared by me or under my direct supervision and that I am a duly Licensed Land Surveyor under the laws of the State of Wisconsin.

Dated this 21st day of May, 2013

Nicholas M. Hillmer, P.L.S. 2909 Anderson Engineering of Minnesota, LLC.

## **CERTIFIED LAND CORNER**

History of corner established since Original Government Survey

The 1940's McCoy boundary notes show a corner at this location. In September of 1978, Lawerence Feddersen found this corner to be obliterated. Feddersen disagreed with the McCoy survey and set a Harrison monument on line and midway between the northeast and southeast corners of Section 16.

## Description of evidence found

On August 28, 2012, Anderson Engineering of Minnesota located the Harrison monument flush with the ground and 0.3 feet east of a metal fence post with survey marker sign.

Description of corner and witness monuments, references and accessories used to perpetuate the original or re-established location of this corner:

Witnesses to corner location:

Nick Hillmer Josh Oslund Dan Greenwald

•••	

U.S. Army Corps of Engineers set a boundary marker consisting of a brass cap imbedded in the top of a concrete post at this corner, but has since been bulldozed out.

Description of corner evidence found:

This corner was re-established on line and midway between the NE and SE corners. After reviewing the survey methods, notes and information contained on sheet 10 of the Camp McCoy Boundary Survey, it's our opinion that this corner was improperly established in the aforementioned survey, considering there were existing monumented corners ½ mile North and South; and also by the fact that the fence as shown in the notes of the aforementioned survey, could be readily challenged as having any significant control over the proper location of the corner.
