Title

History of corner establishment since Original Government Survey

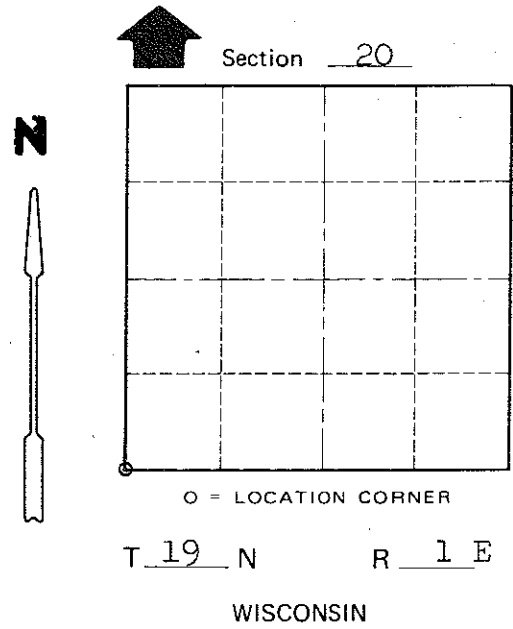

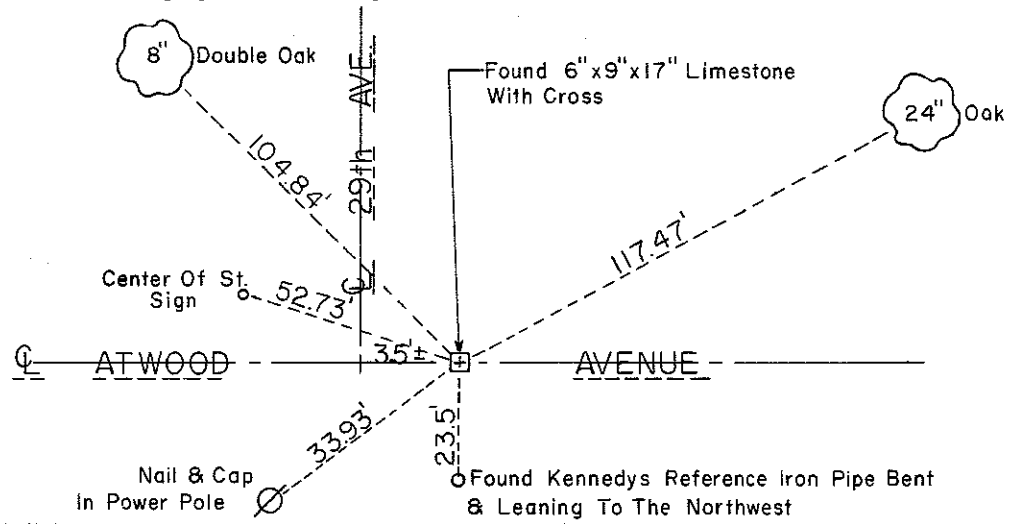

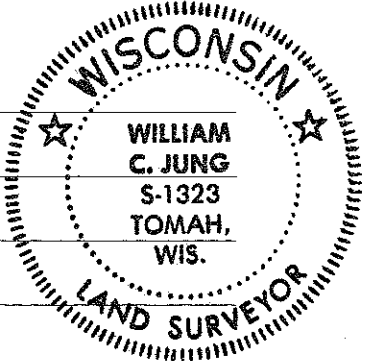

Fred Holden set a stone at this corner in June of 1902. Kennedy found this stone in his survey of the late 1930's. Bergman also found this stone in his survey of July, 1954.

Description of corner evidence found:
Found 6"x9"x17" limestone with cross, down 5", resting on top of a smaller stone. "Left" stone in and set a 1/4"x30" round iron bar on the Northeast side of stone as witness. Set nails and caps 2' North and West of stone. (*Also found dead 16", partially petrified pine to Northeast. This tree fits Holdens bearing and distance. It had been hacked back previously, and shows old scribings - S.)
