History of corner establishment since Original Government Survey

CERTIFIED LAND CORNER

Fred A. Holden was here in June of 1902 and set a stone. Kennedy was here in May of 1938 and could not find Holden's stone, but did make a mark on the bridge. William Jung was here in June of 1980 and could not find evidence of Holden's corner or Kennedy's corner. Jung set a Harrison monument at a location by prorating his measurement along the South line of Section 20 to Holden's measurement.

Corner Evidence Found:

I found the stone of record at the East 1/4 corner of Section 20. I established this corner by intersecting the lines that run along the East line of the NE% of Section 20 and the South line of the SW% of Section 20. I discussed this corner location with Mr. Jung and he agreed that the corner should be moved to my location. ferences and accessories used to perpetuate the original or re-established location of this corner:
