## JACKSON COUNTY - U.S. PUBLIC LAND SURVEY MONUMENT RECORD

TYPE OF MONUMENT: Cast Iron Harrison Monument

REFERENCED FOR SURVEY RECORDED IN CSM# \_\_\_\_\_ OR CSR#

SURVEYOR'S FILE# OR PROJECT# Fieldbook: T20N-R1W, Pg. 18 - 19

DRAWN BY: Ethan Remus

WITNESS: Ethan Remus

NAD 83 (91)

CORNER VOL. <u>15</u>, PAGE <u>2466</u>
CORNER# <u>22001310020</u>
SECTION <u>31</u>, T <u>20</u> N, R <u>1 W</u>
S1/4 CORNER

GEOGRAPHIC LOCATION:
LATT: 44°09'37,10804" N

LONG: 90°32'47.04744" W

WISCRS- Jackson County COUNTY COORDINATE SYSTEM (TO BE ASSIGNED BY COUNTY)

N = <u>48247.6673</u> E = <u>166762.7834</u>

## BASIS FOR MONUMENT LOCATION:

Please describe if this is a found, obliterated or lost corner. Give a complete history of the corner listing the vol. & page, dates, surveyor and description of found monument. Please list all parole testimony and who provided it as well as other witness' of recovery. Please describe the best way to reach this corner. Indicate how obstructed this monument might be for GPS observations. Continue on backside if necessary.

- \* James Freeman set a post for the quarter corner as part of the original Township Line survey in 1845. He referenced two bearing trees, a 10" Pine N79°W 151.14', and a 14" White Oak S72°W 123.42'.
- \* D.A. Blencoe used this corner to reestablish the SW corner of the Township for his resurvey of South Millston around 1936. His notes on this corner are difficult to understand. It is my interpretation that he found a stone 3.8' South and a bedrail 16.25' East and 4.95' South of his calculated position. He notes that these were said to have been set by a McNutt (local resident?). He set a hard sandstone, 19" x 19" x 5-1/2", at the corner. He notes it is on the South side of an octagon post in a mound of earth with pits E-W. (Blencoe's South Millston Fieldbook on Pg. 59)
- \* Harley Sime visited this corner in 1980. He found the bedrail as referenced by Blencoe, but could not find the stone at the corner. He reestablished the corner using the distances noted by Blencoe from the bedrail. He set a Harrison monument at the corner and referenced it to three bearing trees. He notes the corner is in the East edge of a road. (See previous tie sheet)
- \* In December of 2015, I found Sime's Harrison monument in excellent condition, down 17" below the ground, just off the East edge of a sand road. I found Sime's bearing trees as depicted below. I found the bedrail as referenced by Blencoe, in good condition, up 10" above ground. I found a 3/4" round iron bar to the East with a Monroe Co. witness sign 18" South. I do not know where this iron bar came from. It appears to have been set at the intersection of the East road R/W line and the section line East. I accepted Sime's Harrison as the quarter corner and drove a 7' steel witness sign post 9' East. I drove three rebar for additional references as depicted below. The corner is open for GPS.

LOCATION (INDICATE W/ MONUMENT SYMBOL)

CERTIFIED CORRECT AND COMPLETE TO THE BEST OF MY KNOWLEDGE AND BELIEF:

Professional Land Surveyor

CF		

t Harley A. Sime do hereby certify that on the 2nd day of May 1980, I found (evidence) (ne evidence) of the Section 6 T 19 N, T 19 N, R 1 W Fourth Principal Meridian, and I reestablished said corner according to the Wisconsin Statutes as shown and described hereon.

Dated this 5th day of Jan. 1981

Approved: HARLEY A. SIME MONROE CO. SURVEYOR

## CERTIFIED LAND CORNER

	No	12	
220	013	1202	

History of corner establishment since Original Government Survey

Blencoe set a stone at this corner and a bedrail 16' East and 5' South of corner.

Description of corner evidence found:

Found Blencoe's bedrail, but could not find stone. Set corner by given distances and direction from Blencoe's notes off of his bedrail.
