History of corner establishment since Original Government Survey

Hamilton LaRue was here in April of 1897. Fred Zietlow was here in April of 1971 and found a stone at the corner. He set an angle iron along side the stone.

Description of corner evidence found:

I found a 3"x12"x22" stone, up 6"+ at a point in the fence where the wire ties and the fence post type changes. I also found an angle iron along side the stone. I accepted the stone as the corner.
