REFERENCED FOR SURVEY RECORDED IN:

BASIS FOR MONUMENT LOCATION

Show info such as: History of corner, with reference to Vol. and pg., dates, surveyor; exact description of monument replaced; if location computed, by taped or EDM traverse; landowner remarks, etc. (Use reverse side if necessary)

I have found no record of this corner having been used since the original survey. I re-established the corner midway between section corners, which falls nearly on the fence line. The pipe 70 feet North shown as a reference is of unknown origin, probably set by a landowner. I drove a brass capped pipe at the corner and drove a steel witness post with sign 1.0 foot East.

Title

Description of corner evidence found:

I re-established the corner midway between section corners, which falls nearly on the fence line. The pipe 70 feet North shown as a reference in the sketch, is of unknown origin, probably set by a landowner. I drove a steel witness post with sign 1.0 foot East of the corner which I marked with a $2" \times 40"$ brass capped pipe.
