## MINIMUM FUND BALANCE POLICY

To avoid service disruption due to revenue short falls, the County Board has set a cash fund balance target of a minimum of 20% of the total annual County operating budget, excluding refundable prepayments and GAAP defined nonspendable, restricted, committed, and assigned account balances.

If the cash fund balance drops below the 20% value, the County Board will develop an action plan to restore the fund balance to the desired level. If unrestricted cash fund balance in the General Fund exceeds 20% of the total annual County operating budget, excluding refundable prepayments and GAAP defined nonspendable, restricted, committed, and assigned account balances. The remaining contingency fund balance will roll forward to the next year and the excess cash fund balance will be transferred to a Debit Service fund designated by the County Board by a majority vote.

### Purpose and Scope:

The purpose of this policy is to establish a framework for the unassigned fund balance in the General Fund. The Contingency and General Fund Balances are Monroe County's sole source of funds which provide financial protection, insure consistent County services, safeguard against operational volatility, shield against present and future State or Federal unfunded mandates, and/or fund unforeseen excess liability claims against the county.

## **Policy**

Monroe County establishes this Minimum Fund Balance Policy to support mitigation of the impact of the general fund levy on county taxpayers while protecting county financial operations, obligations and liabilities.

- A. The county will manage its General Fund Balance as follows:
  - a. The county will maintain an unreserved fund balance of not less than 20% based on the budgeted operating expenditures, as measured on December 31st of each year.
  - b. This parameter shall be reviewed by the Finance Committee annually or more often if economic or budgetary conditions change.
- B. The county will review and adjust fund balance annually to ensure appropriate levels by:
  - a. Planned use of fund balance in excess of General and Special Revenue Fund cash reserves; and
  - b. Requiring a minimum unassigned designated cash balance of 20% of the adopted operating budget for the General and Special Revenue Funds at fiscal year-end; and
  - c. The annual Contingency Fund year-end balance shall be designated a non-lapsing fund. If on December 31st of any given fiscal year, should the cash balance percentage not be met, the contingency fund balance shall lapse to the General Fund in its entirety

or in an amount, as determined by the Finance Committee, to bring General Fund Balance into compliance with this Minimum Fund Balance Policy; and

d. Planned use of fund balance for defined purposes, including property tax relief; funding for major capital projects or time-limited projects; or designating fund balance in excess of 20% for future debt service expenditures.

## Monitoring and Reporting

The Finance Director will calculate the surplus or deficit for the current year based on the annual audit. Any cash reserve surplus after the contingency fund carry forward will be transferred to the Debt Service Fund for future taxpayer relief, transfer of funds to the Debt Service Fund shall cease at such time as all general obligation bonds are paid in full.
