# REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR FEDERAL AND STATE PROGRAM, INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 AND THE STATE SINGLE AUDIT GUIDELINES AND ON THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE

To the County Board Monroe County, Wisconsin

#### Compliance

We have audited Monroe County, Wisconsin's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* and the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration that could have a direct and material effect on each of Monroe County, Wisconsin's major federal and state programs for the year ended December 31, 2011. Monroe County, Wisconsin's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal and state programs is the responsibility of Monroe County, Wisconsin's management. Our responsibility is to express an opinion on Monroe County, Wisconsin's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration. Those standards, OMB Circular A-133 and the *State Single Audit Guidelines* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about Monroe County, Wisconsin's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Monroe County, Wisconsin's compliance with those requirements.

In our opinion, Monroe County, Wisconsin complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended December 31, 2011. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and the *State Single Audit Guidelines* and which is described in the accompanying schedule of findings and questioned costs as Finding 2011-03.

#### Internal Control Over Compliance

Management of Monroe County, Wisconsin is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal and state programs. In planning and performing our audit, we considered Monroe County, Wisconsin's internal control over compliance with the requirements that could have a direct and material effect on a major federal or state program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and the *State Single* 

Audit Guidelines, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Monroe County, Wisconsin's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies or material weaknesses have been identified. However, as described below, we identified a certain deficiency in internal control over compliance that we consider to be a material weakness and another deficiency that we consider to be a significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2011-03 to be a material weakness.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2011-02 to be a significant deficiency.

Major federal and state financial assistance programs are identified in the Schedule of Findings and Questioned Costs and are determined as follows:

Federal Programs: Monroe County, Wisconsin, qualifies as a low risk auditee in accordance with paragraph 530 of OMB Circular A-133. Therefore major programs represent those with combined expenditures exceeding 25% of total federal awards that also were deemed major programs based on the auditor's risk assessment. All other federal programs are considered nonmajor programs.

State Programs: Monroe County, Wisconsin, qualifies as a low risk auditee in accordance with the *State Single Audit Guidelines*. Therefore major programs represent those with combined expenditures exceeding 25% of total state financial assistance that also were deemed major programs based on the auditor's risk assessment. In addition, certain state financial assistance programs were designated state major by the state granting agency and therefore considered state major. All other state financial assistance programs are considered nonmajor programs.

Certain programs administered by the Wisconsin Department of Natural Resources may have been included in the Schedule of State Financial Assistance for presentation purposes only and are not subject to audit as major programs by the *State Single Audit Guidelines*.

| Condition:      | While the current staff of the County maintain financial records which accurately report revenues and expenditures throughout the year, preparing GASB 34 conversion entries necessary to prepare financial statements, including related notes require additional expertise that would entail additional training and staff time to develop. The County contracts with Schenck and their knowledge of current accounting principles to prepare GASB 34 conversion entries and financial reports for the County in an efficient manner. |
| Criteria:       | The review of financial statements by staff with expertise in financial reporting is an internal control intended to prevent, detect and correct a potential misstatement in the financial statements or notes.   |
| Cause:          | The additional costs associated with hiring staff experienced in preparing GASB 34 conversion entries and financial reports, including additional training time outweigh the derived benefits.  |
| Effect:         | The financial statements of the County could be misstated and not detected and corrected in a timely manner without our review and posting of adjusting and closing entries.  |
| Recommendation: | We recommend the County continue reviewing the adjusting and GASB 34 conversion entries along with the financial reports prepared by Schenck. While it may not be cost beneficial to hire additional staff to prepare these items, a thorough review of this information by appropriate staff of the County is necessary to obtain an adequate understanding of the County's financial report.  |

## REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Board Monroe County, Wisconsin

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Monroe County, Wisconsin, as of and for the year ended December 31, 2011, which collectively comprise Monroe County, Wisconsin's basic financial statements and have issued our report thereon dated July 10, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

Management of Monroe County, Wisconsin is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Monroe County, Wisconsin's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Monroe County, Wisconsin's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Monroe County, Wisconsin's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over financial reporting, described in the accompanying schedule of findings and responses that we consider to be a significant deficiency in internal control over financial reporting as described in the accompanying schedule of findings and questioned costs as item 2011-01. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether Monroe County, Wisconsin's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Monroe County, Wisconsin in a separate letter dated July 10, 2012.

Monroe County, Wisconsin's responses to the findings identified in our audit are described in the accompanying schedule of prior year audit findings and corrective action plan. We did not audit Monroe County, Wisconsin's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the management, County Board and federal and state awarding agencies, and is not intended to be and should not be used by anyone other than these specified parties.
