NEW POSITION ANALYSIS

- A. Department: Health Department Date: May 7, 2019

Department Head: Sharon Nelson

B. Explain the necessity of the position (be specific as to reasons why this position is needed, include reasons why present staff cannot accomplish tasks):

Public health is rapidly changing as are the roles and responsibilities of public health workers. As time has gone by, we have seen a population growth and with that comes an increase in communicable disease and other public health threats and concerns. The health issues faced by county residents are increasingly more complex and costly. At one time, communicable diseases were the major health threat, now health issues such as cancer, heart disease and diabetes are the top premature killers of county residents. While there is no simple solution to the three major health threats-no pill or vaccine can prevent cancer, heart disease or diabetes-strategies to address risk factors and lifestyle changes are paramount to decreasing premature death. Communicable diseases, once rather limited, have now expanded to include once unheard of diseases such as Cylosporiasis and Chikungunya; vector borne disease such as babesiosis, anaplasmosis, and Zika; monkey pox,; and latent tuberculosis infection. Foodborne and waterborne outbreaks are on the rise. In addition, we have seen an increase in opiate issues within the county and the need for prevention efforts with collaboration efforts with community partners. Health educators have the skill sets to work to improve health at the individual, community and systems levels. They effectively educate the public as well as assess, plan, implement, evaluate, and write grants (of which the last 16 months \$38,500.00 grant funding success) to fund public health interventions which is critical to public health programming and aligns with the 10 Essential Public Health Services as defined by the Centers for Disease Control. Lastly, planning and policy are also highlights of the CHE skillset which is the direction public health is moving towards.

At this time the health department does not have adequate staffing levels to meet the needs of Monroe County residents. According to Wisconsin Department of Health Services, Office of Policy and Practice Alignment, 2015, the state average of public health county levy per capita was \$26.61 whereas \$19.66 was Monroe County's cost per capita. According to the same report, the average state public health staff rate per 10,000 population was 3.9 and Monroe County's public health rate was 2.9. The 2008 annual report presented at the March 9, 2009 Board of Health committee meeting reports staff positions of 19 individuals (FTE_15.9), at the end of 2008 staff positions were reduced accordingly due to phasing out the Home Health skilled nursing program. Four full/part time public health nurses, two full/part time certified nursing assistants and one office support position were eliminated or reduced accordingly at that time. Currently, there are 11 employees in the health department or 9.9 FTE, consisting of: 5 Public Health Nurses, 1 Community Health Educator, 1 Registered Dietician, 1 Nutritionist, and 3 Office Support staff. The last request for

an additional health department staff member was over 25 years ago, January 1, 1992.

The health department's mission is to protect, promote and improve the health of county residents. By investing in this position we would continue to move forward the mission of the health department, a healthy county where people live, work and play.

B. Explain the necessity of the position (be specific as to reasons why this position is needed, include reasons why present staff cannot accomplish tasks):

In 2005 a Telecommunicator position was eliminated. Since that time there have been open hours on the schedule that have been filled by overtime. Like the Sheriff's Department and the District Attorney's office, dispatch has been increasingly busier and more is expected of them with the advancement of technology. Minimum staffing is currently three, but many times four are/would be needed to keep up with call volumes.

For a 24-hour operation and minimal staffing:
24 hours per day
7 days per week
168 hours per week (24x7=168)
With 40 hours per FTE - that is 4.2 FTE's per shift (168/40=4.2)

 $4.2~{\rm FTE's}$ will have $8.4~{\rm (or~more)}$ weeks of vacation to cover plus sick time so you will need more than $4.2~{\rm to}$ cover one position/line

The dispatch center has been short staffed for two years requiring us to go to 12-hour shifts. A huge side effect of this is ordering employees in on their days off to cover open shifts. As a result of being short staffed, we are experiencing much turnover and struggling to retain good employees. This new position will put our staffing at a level where we will be better able reduce stress on the schedule and staff and make it easier to maintain minimal staffing and allow employees to enjoy their days off.

Suggested Title: <u>Telecommunicator</u> Full Time <u>X</u> Part Time ___/hrs

The Telecommunicator uses the State TIME system to query, enter, and maintain records on people, vehicles, firearms and property. NEW POSITION ANALYSIS

New position X Increased part-time Additional existing position (attach job description, do not need to complete sections C, D, E, G & H)
A. Department: Human Services - ADRC Date: 5/22/2019
Department Head: Ron Hamilton
B. Explain the necessity of the position (be specific as to reasons wh this position is needed, include reasons why present staff canno accomplish tasks):
The ADRC and the Senior Services became integrated as of 7/1/2017 under the title of ADRC of Monroe County as a unit within MCDHS. With this integration a.5 FTE Disability Benefit Specialist position was created as a requirement of the state ADRC contract. This position has been very successful in meeting the needs of our consumers, so much so that there is a need to increase the position from .5 to fulltime. Our current DBS is carrying a fulltime caseload as determined by Disability Rights Wisconsin, who provides oversight to the DBS program. Fulltime DBS staff across the state have an active caseload range from 20-45. Our current.5 DBS in 2018 had a caseload of 72 total cases with 32 active cases. Given the 20/hr. week time constraint, there are consumers that are put on a wait list, given a packet of written materials or are referred to other resources. Approximately 10-12 consumers per month are unable to receive services due to limited time and capacity of our DBS. She deals with very complicated cases involving SSI/SSDI, Medicare and insurance. In order to better meet consumer needs, reduce wait times and enhance services a fulltime position is deemed necessary. This will also assist in the recruitment, retention and stability for the DBS position in the future. The 2020 costs are estimated to be \$61,859.This expenditure will be offset by revenues through our state ADRC allocation and claimed through billable hours. This position increase will not impact current County tax levy.

Due to the continued rise in caseload and the lack of additional prosecutors we need to have a position that can take duties from the prosecutors as well as current staff so that our office can continue to protect the citizens from criminal behavior. The workload is such that our office is at significant risk of violating statutory deadlines much less keep the backlog of cases at an acceptable level. Monroe County has three Judges and only three prosecutors, this is extremely rare in counties across Wisconsin. In most places there are at least 25 percent more prosecutors than Judges. This is because the amount of prep work necessary to prepare most cases for Court. Without adequate prep time cases cannot be handled appropriately. Adding this position will lessen some of the prep time burden on attorneys and place that burden on the paralegal.
