Little Lemonweir River Bridge B-41-331
Town of Clifton, County N
Monroe County

This letter is intended to provide notification and solicit public comments for an upcoming Bridge Replacement project. No in-person meeting is planned; however, information is provided here and on the Monroe County Highway Department website. The Wisconsin Department of Transportation (WisDOT) and the Monroe County Highway Department welcome your comments on this project.

Project Description

CORRE Inc, on behalf of the Monroe County Highway Department and WisDOT, is preparing plans for the replacement of the Little Lemonweir River Bridge on County N in the Town of Clifton. The proposed work will include a new 50-foot long single-span concrete flat slab bridge structure with a 28-foot clear width between open steel railings. Approximately 100 feet of roadway approaches will be reconstructed as part of the project. The purpose of this project is to address the advanced deterioration documented on the existing Little Lemonweir River bridge. Construction is partially funded utilizing state and federal funding and currently scheduled for the summer of 2026.

Proposed Traffic Impacts

County N will be closed during construction. No formal detour will be posted as alternate routes exist.

Schedule

Preliminary Design Began..... Fall 2022
Scheduled Construction..... Summer 2026

More Information

Additional project information can be found under the “Current Department News Release” at the Monroe County Highway Department website: <http://www.co.monroe.wi.us/departments/highway/>
