History of corner establishment since Original Government Survey

In August of 1970, Duane Marten surveyed out Section 17 while conducting the survey for his plat of "Big Creek Valley". He set a 3/4" iron bar at the occupied fence corner at the SW of Section 17. At this corner he found a fence to the North and to the West.

Description of corner evidence found:

I could not find Marten's iron bar at the corner. I accepted the old occupied fence corner as the best available evidence of the original government corner.
