

between them. Thence the distance from the $\frac{1}{4}$ Stake on the N side to the NE corner of the Sec. was found to contain 37 Ch 30 Links and the 8 Stake on this line est. at equal distance between this points. Thence the dis. from the NE corner to the $\frac{1}{4}$ Stake on the East side was found to be 37 Ch 11 Links and the 8 Stake on this line estab. led at equal distance between these 2 points.

The 8 Stake on the $\frac{1}{4}$ Line between the $\frac{1}{4}$ Stake on the Centre of the Sec. and that on the North side was thus est. at equal dist. and also that on the Centre of the NE $\frac{1}{4}$ of the Sec. was est. at equal dist. and in right line with the 8 Stake on the N & S. E & W sides of this $\frac{1}{4}$ Sec. after the 8 Stakes on the $\frac{1}{4}$ Line E & W have been est. at equal distances from the $\frac{1}{4}$ Stake on the E side and that on the Centre and at proportional distances from the $\frac{1}{4}$ Stake on the Centre and that on the West side of the Sec. Thence the NE of NE $\frac{1}{4}$ of this Sec. was divided into 2 equal parts with a line E & West.
