

As it remembered that on the 4th day of December 1868 I was sworn
 saying a alteration on the on Poly 31 recorded Road in Town of
 Townsh by request of the Board of Supervisor in said Town
 Mr Ormsdell or Chairman and Mr Dutcher & Hill and in
 presence of them and proceeded as follows to wit: Commenced
 at the 4th Stake on the Road and on the 25th of Nov 1868 at
 a Stake 10th thence S 82^o W 9 Ch 59^o to a Stake thence S 65^o W 5 Ch.
 78^o to a Stake with 19^o W 18^o S 5^o E 79^o where it intersect
 with the sec: Line between Sec 17 & 20. 17. 18^o from which point
 it said point on 5 Ch 10 Lumber East from the 8 Stake between the
 4 Stake and the Sec: Corners of Sec: 17. 18. 19. & 20. The former
 survey on hereby altered on far as this survey goes; The
 balance of the Road is to be opened according to the
 former survey. I hereby certify that the proceedings
 is correct or stated and that the Chairman was
 sworn according to Law

O. E. Galt

As it remembered that on the 18th 19th & 20 day of Nov
 1867 I was sworn saying Sec: 20. 18. 19th by request of Mrs J. G. Sharp
 Miller Perce & Winer and proceeded as follows to wit
 Commenced at 7th Stake on the West side of the Sec: thence East
 to the 7th Stake on the East side distance 318 Rods 10^o L thence from
 the 7th Stake on the S side to that on the N side distance 304 Rods thence
 the 7th Stake in the Centre was established at equal distance from the 7th Stake
 on the E & W side 159 R 5^o L and also from the 7th Stake on the S & N side
 162 Rods said 7th Stake in the Centre have been established by a survey at
 a former time and was found to be on the right place thence the
 8 Stake on the 7th Line West from the 7th Stake in the Centre and also that on
 the East side of it was established at equal distance between them
 namely 79 R 15^o L. thence the 8 Stake on the 7th Line on the S & N side of the
 Centre was established at equal distance namely 81 Rods. thence the
 distance between the 7th Stake on the W side and the NW Corner of
 the Sec: was then measured and found to contain 167 Rods 23^o L
 and the 8 Stake on that Line established at equal distance between them
 80 R 24^o L thence the 8 Stake on the 8th Line was estab: at equal distance
 between the last mentioned 8 Stake and that on the 7th Line North from the
 Centre. thence the distance from the 7th Stake on the East side
 of the Sec: was measured and found to contain 160 Rods + 22 Lumber
 and the 8 Stake on that Line estab: at equal distance 80 R 11 Lumber
 and also the 8 Stake on the Centre of the N & S was estab: at equal
 distance between the 8 Stake on the Sec: Line on the W side of the
