History of corner establishment since Original Government Survey

41501162000

O.R. Dahl found this corner existing in July of 1868.

See Reverse Side For Maintenance

Description of corner evidence found:

Set the corner at a point equidistant between the N.W. and S.W. section corners and on line with a line fence going to the South. This fits the old established West line of the SW1/4 very well, especially at the occupied W1/16SW corner.

County Surveyo	r's Office
